QisDESIGN

Rising beyond traditional boundaries, our design amazes consumers by bringing them a sense-rich experience. Based on our brand philosophy--"Imagine another possibility", we combine innovative technology and sophisticated design to achieve perfection. We aim to deliver a unique experience, not only fulfilling consumers' desires but also stimulating their imagination.

Debuting in 2009, QisDesign's excellent design capabilities have won it accolades of many international awards. Albeit young, QisDesign has won a total of 87 international design awards, including Germany's iF awards and Red Dot awards and Japan's G-Mark awards.

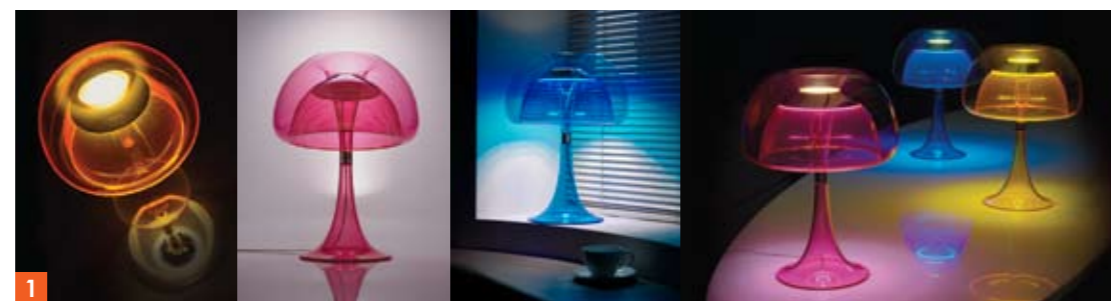

Aurelia Light
Be allured

Mesmerizing, amazing, beautiful--Aurelia, the Moon Jellyfish, evokes a sense of tranquility bordering on a trance state. So does the eponymous LED table lamp. With a three-way "touch ring" dimmer, it enables easy luminosity adjustment. LED's directional characteristic which lets the light reflect directly on the inner shade's strips also helps create the translucent ambience.

1 **JF11_D** Aurelia Light- Ø350mm, H460mm, 1.9kg, 18W(max.). Colors: pink, aqua, orange.

Flamenca
Full of delight

The Flamenca is an ambient light which is inspired by the breathtaking movement of Flamenco dancer's ruffled skirt twirling around in the air. A gentle touch on the metallic-like plate will switch on the "dancing mode" to create a soft flowing effect. Press and hold on longer of the top plate to achieve various dimming illuminations and hold to turn off the light. Granted LED's low-temperature characteristic, users can enjoy the interactive fun without any hazardous concern.

1 **LC11_D** Flamenca- Ø200mm, H95mm, 0.36kg, 3W(max.) Colors: pink, orange, green.

BE Light
Best. Bendable. Beautiful

The BE Light is an LED desk lamp that folds and sports a unique articulated design. With its clever hinge design, it can be fully extended to provide adequate task lighting or be folded down flat to a minimum height of 1.8 cm when not in use. It also adopts light guide technology to evenly distribute the LED light, eliminating all concerns over glare. Made of aluminum alloy, the BE Light is lightweight, yet sturdy.

1 **ZR11_D** BE Light- W450.5mm, H466.6mm(90°), 1.6kg, 12W(max.)

The Coral Reef Light
Serene in glory

The Coral Reef Light, an LED lighting fixture, features swivellable lighting petal of organic shape. While the floor lamp features 3 overlapping layers which can be activated independently by being swiveled, the table lamp has one adjustable layer and is activated by a touch on the stand. Serene, subtle, but yet movable, the Coral Reef Light evokes an image of the underwater world where the darkness is quietly subdued by the swaying flows of light.

reddot design award best of the best 2011

1 **RF10_D** Coral Reef Table Light- W382mm, H465mm, 6.8kg, 24W(max.)
2 **RF10_F** Coral Reef Floor Light- Ø330mm, H1618mm, 12.5kg, 28W(max.)
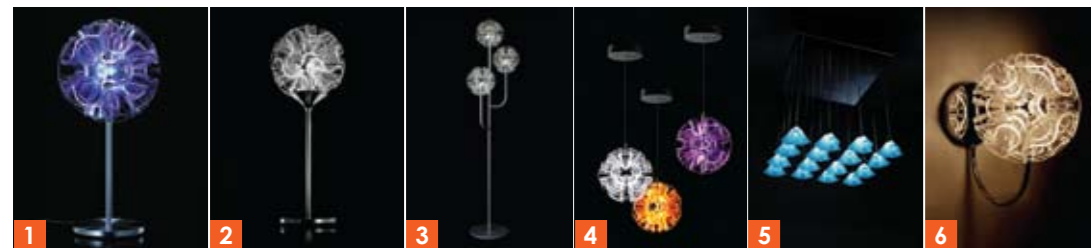

The Coral Light
Sparkling light from the water

The Coral Light, an LED lighting fixture, is inspired by ocean's exquisite corals. Imitating how natural coral reflects rays of light through the sea, the Coral Light creates a visually mesmerizing effect. Besides floor lamp, wall lamp and suspension, it also has 2 table lamps of different height—45 cm (for ambience lighting) and 55cm (for reading function).

1. **CR01_DR45** Coral Table Light- Ø212mm, H450mm, 2.6kg, 7W. Colors: clear, violet, orange.
2. **CR01_DR55** Coral Table Light- Ø212mm, H550mm, 4.8kg, 10W
3. **CR01_FR** Coral Floor Light- Ø317mm, H1680mm, 12.1kg, 20W
4. **CR01_P** Coral Ball Suspension- Ø212mm, H2000mm(max.), 1.8kg, 5W. Colors: clear, violet, orange
5. **CR01_P16** Coral Suspension- W550mm, H1750mm, 7.7kg, 7W
6. **CR01_W** Coral Wall Light- W306.3mm, H301.5mm, 1.9kg, 5W

The Crystal Light
Illumination and imagination

The Crystal Light, an LED lighting fixture, is inspired by the natural growing crystal. It's composed of various "crystals". Users can assemble these "crystals", each of which is connected by a magnet, into any form they desire. Users can also change the light mode with a remote control to create different lighting effects to fit their moods and environments.

1. **NV01** Crystal Light- W73mm, H73mm, 1.1kg(set), 7W.

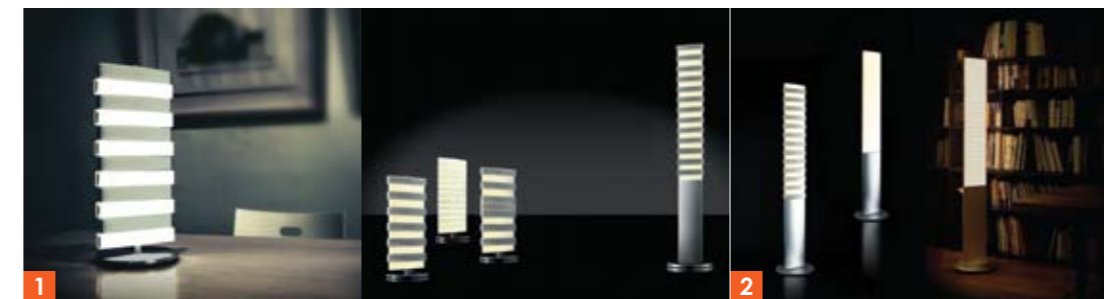

The Piano Light
Play with light

Inspired by the piano, the Piano Light, an LED lighting fixture, allows users to play the light as if they were playing the piano. The lighting panel is composed of independent units, each of which can work solo or in harmony. A simple and gentle tilt of the Piano Light, just like playing the piano, activates the illumination and fills the space with warm and tender light.

1. **PA01_D** Piano Table Light- Ø200mm, H460mm, 3.5kg, 15W(max.)
2. **PA01_F** Piano Floor Light- Ø320mm, H1570mm, 12.8kg, 32W(max.)

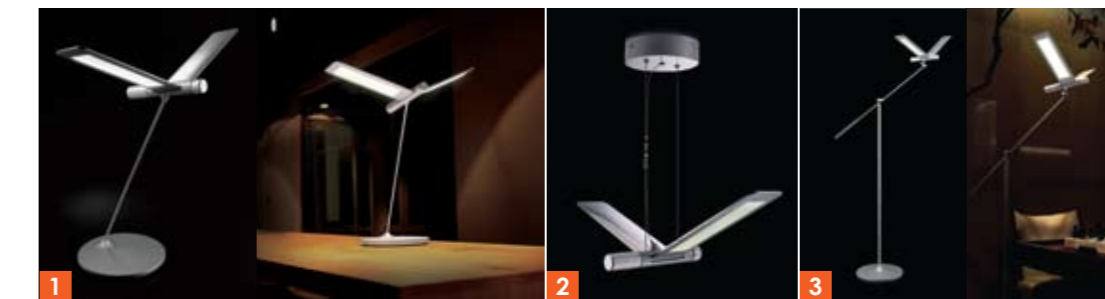

The Seagull Light
Light and free

Inspired by the seagull, The Seagull Light adopts LED as lighting source to response to the eco trend and put LEDs underneath the "wings" to highlight the thinness. It has two knobs on the main body, the front one for adjusting brightness and the back for adjusting lighting angles. The "wings" would change positions in accordance with the light adjustment. The choice of metal material makes the lamp look steady and delivers a premium feel.

1. **BD10_D** Seagull Table Light- Ø230mm, H630mm, 2.3kg, 14W(max.)
2. **BD10_P** Seagull Suspension- Ø135mm, H2000mm(max.), 1.1kg, 14W(max.)
3. **BD10_F** Seagull Floor Light- Ø330mm, H1620mm, 8.8kg, 14W(max.)
